1850—83 YEARS IN ROSES—1933

Our pot-grown roses have been, for more than 60 years, the standard of excellence by which others are judged. Our dormant field-grown roses are wonderful plants in size, vigor and health. Fall planting of them is especially recommended. Planting instructions sent with each order. Our prices are low. Our roses are the best we have ever had in our entire history. We still pay postage anywhere in the U. S. A. and guarantee safe arrival and absolute satisfaction or money back.

Fall planting of roses has become the universal plan now. You gain practically a year in results. Early blooms next year, continuously and abundantly, assured from planting now.

We invite our friends within driving distance to visit us and see our roses in the open ground as well as under glass. Come at any time, visitors always welcome. If you care to advise us in advance of your coming at any particular time, we will be here to welcome you. We are on U. S. Route 1 from Baltimore to Philadelphia. We have no connection with any other firm in West Grove.

83 years of experience is at your service. Pleasant, honest and satisfactory dealing is your guarantee.

Terms, Guarantee and How We Ship

TERMS—At the bargain prices herein we prepay all shipments by parcel post. Our terms are cash with order. You can open an account or we will ship C. O. D. if one-half total amount of order is sent when ordering. Kindly give bank reference. Money may be sent at our risk by Post Office Order, Express Money Order, Bank Draft, Personal Check, Money in Registered Letter. Stamps accepted for less than \$1.00.

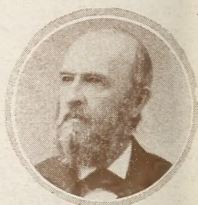

GUARANTEE—Complaints as to condition of plants, correct count, anything in connection with shipment, must be made within 10 days after receipt of shipment. All errors and omissions promptly corrected. After that, our responsibility ceases. We strive to have plants true to name but do not guarantee it. Potted plants will be shipped with some soil around roots, postage paid. For all soil intact around the roots, plants wrapped separately in water-proof paper, please add 3c for each 1-year old pot plant and 5c for each 2-year old pot plant. Advice cheerfully given, but enclose stamped envelope (3c) please.

PLEASE OBSERVE CAREFULLY—When ordering, please use the order sheet provided for that purpose in back of book. Simply fill up the blanks, giving the number and name of the varieties wanted, with size and price; we will understand.

PLANT POT-GROWN ROSES IMMEDIATELY—When freezing weather is at hand, heap soil up around the plants for winter protection, removing a portion of it in the early spring. Ordinary good garden soil is all that you need, with plenty of sunshine; a well rotted manure or bone meal mixed in the soil is helpful. Our Roses are so healthy they need no petting or coaxing. Plant well down in the earth.

HARDY EVERBLOOMING BUSH ROSES

RED
AND ORANGE
COLOR EFFECT

Charles P. Kilham

Charles P. Kilham

Edel

One of the most popular roses on account of its pleasing color. Coral-red and orange. The long pointed buds open to fully double, finely formed blooms of coral red with an orange base. The plant is of average height, strong, sturdy healthy bush producing flowers very freely and so thoroughly dependable that it is one of the best Garden roses today. Splendid for cutting. 80c each, 2 for \$1.50. 2 year old dormant plants only.

MARGARET MCGREDY — Large, ovoid buds of solid orange-vermillion opening into double cupped blooms. Foliage light green resistant to black spot and mildew. Free blooming and a vigorous grower. Hardy everywhere. 70c each, 4 for \$2.50. 2 year old dormant plants only.

SYRACUSE—Tight crimson buds with large, full double bloom with deep crimson wavy petals. Free bloomer and a vigorous grower. 70c each, 4 for \$2.50. 2 year old field grown plants only.

MRS. P. S. DUPONT—The bud is long-pointed, rich reddish gold, almost orange in the depths of the petals, holding its color well after opening. Disease resistance foliage and compact bushy habit. Continuous bloomer. \$1.00 each, 2 for \$1.75. 2 year old dormant field grown plants only.

We consider it the best white Rose for outdoor culture. Pure white without a trace of any color. Strong grower producing large magnificent full double blooms. Upright grower and a splendid bedding variety. Sweetly fragrant. 70c each, 4 for \$2.50. 2 year old dormant plants only.

IMPERIAL POTENTATE—Shining rose pink, shaded lighter on reverse of petals. Vigorous grower of free flowering habit. 70c each, 4 for \$2.50. 2 year old dormant plants only.

DAME EDITH HELEN—The color is a brilliant yet soft pink, and delightfully sweet scented. Strong vigorous grower. Bud long pointed opening full and double and almost a perfect flower. 70c each, 4 for \$2.50. 2 year old dormant plants only.

CHAS. K. DOUGLAS—Splendid garden rose with great depth of petals and clear unfading color. Exceptionally good growth and there is an increasing demand for it. Fine pointed buds opening to large loosely formed flower of striking crimson-scarlet. Good foliage. 70c each, 4 for \$2.50. 2 year old dormant field grown plants only.

NOTE—Any four 70c kinds, assorted for \$2.50.

HARDY EVERBLOOMING BUSH ROSES

Rev. F. Page Roberts

Copper-red buds of good length of exquisite color and form, opening to rich Indian yellow inside with the outside petals strongly marked apricot and carmine. Rich tea fragrance. A glorified Duchess of Wellington but with more petals and deeper, richer color and better shape. Plants are of a strong growth, branching habit with healthy disease and insect resistant foliage. Each season its popularity increases and deservedly so.

MRS. E. P. THOM —

Slender yellow buds and large well shaped blooms of bright canary yellow deepening towards center. Exceptional vigorous grower and free bloomer.

DIRECTOR RUBIO —

Bud and flower very large semi-double and informally shaped, showy light red, and moderately fragrant. Foliage disease and insect resistant. Vigorous and bushy grower.

Mrs. G. H. Van Rossem

Astonishing vivid color of a glowing orange or apricot overlaying golden yellow retaining a marvelous combination of golden salmon and light orange upon opening, reverse of petals generally bronze. An outstanding new rose of the highly colored varieties. We believe it makes a wonderful bedding and cutting variety. \$1.00 each, 2 for \$1.75; 2 year old dormant field grown plants only.

SOUV. DE GEORGES PERNET —

Brick-red buds, opening to terra-cotta pink blooms of immense size, very double and delightfully fragrant.

MARIE DOT — Orange and apricot in bud, opening full and double of a deep apricot which finally fades to a soft old rose-pink. Delightfully fragrant. Branching growth and shiny dark foliage. Prized for its rare coloring.

PAX LABOR — After years of trial we heartily recommend this double pale yellow rose as being one of the most satisfactory yellow varieties. Vigorous grower holding foliage well during entire season. Profuse bloomer.

Price of roses on this page, except where noted, 70c each, 4 for \$2.50. Dormant 2 year old plants only.

HARDY EVERBLOOMING BUSH ROSES

New Fancy Colored Rose "Gaiety"

Gaiety

One of the fancy colored Roses that seems to meet the taste of all rose enthusiasts as we find those who have grown it speaking in the highest praise of its good characters. Exceptionally fine grower producing fine big plant in a short time. Foliage light green, free from black spot or mildew. Produces quantities of large round camillea-like flowers of an extraordinary combination of pink, red, golden yellow, Indian red and brown. Colors vary with the season and seems to increase in beauty every day. Some claim it is the best of all their Roses. 80c ea., 2 for \$1.50. 2 year old dormant plants only.

Talisman

A sensational and now popular rose. It has one great redeeming feature and that is its disease resistant quality. We have found it a wonderful grower and bloomer. Buds are handsome of a mixture of orange yellow and red shades almost impossible to describe, a striking combination. Superb in early spring and in the late fall. 80c each, 2 for \$1.50, 2 year old dormant plants only.

THE GENERAL—A leader among red roses by the beauty of its color and form and delightful fragrance. Bush of a dwarf habit but very vigorous and free blooming, becoming almost a solid mass of blooms of blood red. 70c each, 4 for \$2.50. 2 year old dormant plants only.

DUCHESS OF WELLINGTON—A peerless Tea-like Rose, and one of the best in our trial grounds, with beautifully smooth and massive petals. The blooms are very large, full and perfectly formed, with high-pointed center. Very sweetly perfumed. The color, which is very novel, is a dainty, clear rose-madder. The growth is vigorous, erect and of very free-flowing habit. 70c each, 4 for \$2.50. 2 year old dormant field grown plants only.

BETTY UPRICHARD—One of the leading new Roses of a brilliant copper-red bud and semi-double salmon-pink flowers stained with copper-pink on the outside. Profuse bloomer and strong grower. 70c each, 4 for \$2.50. 2 year old dormant field grown plants only.

LADY ASHTOWN—One of the good old standard Roses that remains good. Satiny buds and blooms of deep shining pink with a yellow glow at base of petals. High center and very double. 70c each, 4 for \$2.50. 2 year old dormant field grown plants only.

SOUV. DE CLAUDIUS PERNET—In this rose we have the clear shining yellow color not yet seen in any rose, being entirely free from orange yellow found in such varieties as Sunburst and Mrs. Aaron Ward. The foliage is free and vigorous, leaves being bright shining green looking as if they had been varnished. Growth strong and sturdy. Free flowering. 70c each, 4 for \$2.50. 2 year old dormant field grown plants only.

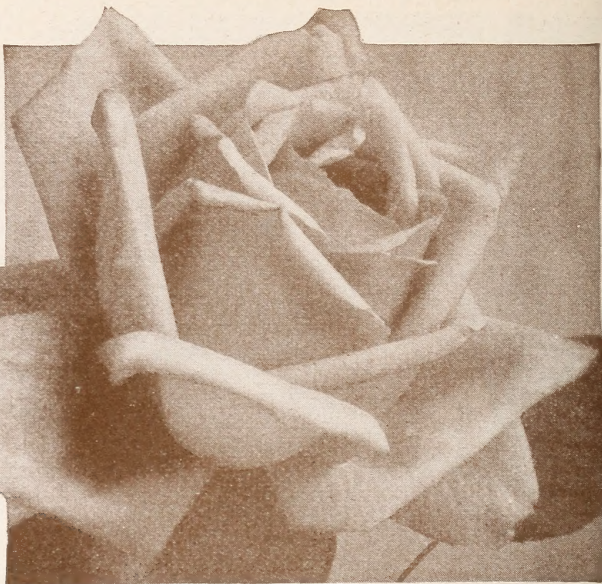

VILLE DE PARIS—Round buds of clear golden yellow opening into large handsome globular flowers of the same hue which retains its color in the open flower. Good healthy growth. 70c each, 4 for \$2.50. 2 year old dormant plants only.

NOTE—Any four 70c kinds, assorted for \$2.50.

HARDY EVERBLOOMING BUSH ROSES

David
O. Dodd
Great
New
Crimson
Bush Rose

David O. Dodd

A Glorious New Bush Rose

A new crimson bush rose destined to supersede all other crimsons such as Etoile de Holland, Hawlmark Crimson and similar varieties. A magnificent rich crimson, flushed scarlet, with superbly formed buds, carried erect and opening into immense beautifully shaped flowers. Very free flowering; growth bushy and upright; hardy. A splendid crimson rose with no faults. First size pot plants, 30c each, \$3.00 doz., postpaid. 2 year old dormant field grown plants, 80c each, 2 for \$1.50, postpaid.

***E. G. HILL**—Immense perfect blooms of crimson scarlet retaining its color well. Handsome pointed buds on erect stems, making it fine for cutting. Produces an abundance of blooms throughout the entire season. Foliage large and free from mildew and disease. Blooms very fragrant. Perfectly hardy and a splendid outdoor variety. First size pot plants 30c each, \$3.00 doz., postpaid. 2 year old dormant field grown plants, 80c each, 2 for \$1.50, postpaid.

ETOILE DE FRANCE—The bushes are blooming constantly, producing large, massive, deep, full, cup-formed flowers of clear red or velvety crimson.

ETOILE DE HOLLAND—Flower bright, dark red, of medium size, fairly full; deliciously perfumed. Growth vigorous, upright.

Amelia Gude

A most charming rose, with dainty buds, and blooms of exquisite form. The colors of yellow-rose, deepening towards the center to peach yellow, are exceedingly soft, and very pleasingly blended. A strong growing variety, with fine healthy foliage and very liberal in its production of blooms from one season's end to the other.

MRS. HENRY MORSE—Two contrasting tones of pink with an underlying yellow glow, double high centered. Plant tall and branching.

RADIANCE The Standard Garden Rose of America—This is by far the best pink garden rose in existence, because of its vigorous, heavy growth, and its great abundance of bloom. Extremely easy to grow, requiring little attention, it is exceptionally well adapted for the amateur's garden. The color is almost a solid rose-pink, but with lighter tints and reflections. Long, heavy stems, bearing large and beautiful buds which open slowly into globular, somewhat loosely formed, fairly double flowers.

RED RADIANCE—Very similar to Radiance and equally satisfactory. Large, globular, cupped blooms, of strong, clear red, with no trace of any other color. An exceptionally vigorous grower, sending forth heavy canes, with healthy foliage. Very liberal in producing blooms, it cannot be surpassed as a red garden rose. Extremely hardy.

Price of any rose on this page, except where noted. First size pot plants, 25c each, 5 for \$1.00. 2 year old Pot Plants or dormant field grown plants, 70c each, postpaid. Any four 70c kinds for \$2.50 postpaid.

HARDY EVERBLOOMING BUSH ROSES

*Garden Gem

This great new bush rose introduced and for sale only by us is a remarkable rose—it has no disease of any kind. Absolutely free from Black Spot and kindred diseases that are so annoying and

which are found so abundantly in nearly all the roses of recent origin.

Its parentage is the finest of any rose in cultivation—a hybridization of "Mrs. E. T. Stotesbury"—a great American rose and "America," another great American (Hill) production. It is a marvelously strong, healthy grower under the most adverse conditions.

thriving even in extreme heat—just a grand grower. As already stated there is no rose we know of to compare with it in the absolute healthy growth that characterizes it at all times. Of course it is but natural that it should be a magnificent bloomer, continuously bearing its beautiful, satiny pink flowers of lovely form on strong erect stems, making it one of the greatest of all roses new or old, for garden cultivation and for cutting.

KOOTENAY—The buds are long and pointed, and of exquisite form, opening to large rounded flowers full and double. Color creamy white, with shadings of flesh colors towards the center. Foliage heavy, unaffected by disease and little troubled with insects.

MADAME SECOND WEBER—One of the most beautiful roses, of ideal form. The long pointed buds are pink or salmon-flesh and when fully expanded are immense in size, full and double; as the flower opens it deepens until it fairly glows with its warm, deep pink.

Our Great New Rose "Garden Gem"

*Francis Scott Key

It is by far the most popular red rose, for its glowing colors, its remarkable size, its fullness, its perfection of form make it a greatly prized variety. The color is a rich, glowing scarlet, with darker shadings, becoming darker as the flower ages.

F. R. PATZER—Creamy buff, with the reverse of petals a delicate warm pink, and as they expand the color becomes a light orange pink.

MME. BUTTERFLY—Buds a lovely shade of Indian ochre, yellow at base; opening flowers perfect in form brilliant in color and of delicious fragrance.

***VIRGINIA R. COKE** (Gruss an Teplitz)—Fiery crimson, shaded with a dark velvety sheen. The flowers are large and handsome, produced in continuous profusion throughout the season. Very vigorous, bushy grower, and because of its strong growing habits it should not be placed with other hybrid teas.

Price of roses on this page: First size Pot Plants, 25c each; any 5 for \$1. postpaid; 2 year old pot plants 70c each; any four 70c kinds for \$2.50. Dormant field grown plants furnished of varieties marked * 70c each, postpaid.

HARDY EVERBLOOMING BUSH ROSES

Mrs. Aaron Ward

*Mrs. Aaron Ward

Most exquisite buds of golden buff or fawn, opening to full, double, well formed flowers, of pinkish fawn. The plant does not grow large, but is dwarf and spreading, covered with heavy foliage that is immune from disease and insect pests. This is an excellent rose for the garden, for it requires little attention, blooms profusely, and is most useful for cutting and for the buttonhole.

JOHN COOK—A seedling of La France, is noted for its profusion of bloom throughout the entire season. The buds form in clusters of two to six. The flowers are similar to La-France in color, but it is a great improvement of that variety in its quick growth and freedom from black spot.

MAD. CAROLINE TESTOUT—In color, it is of a satiny rose, deepening to clear red in the center. One of the most dependable roses.

ROSE DAWN—Bud pointed, good size medium full. Color a soft rose flesh with yellow base. Good foliage of a light green and free from insects or disease. Profuse bloomer. Fragrant.

CITY OF LITTLE ROCK—Distinct and beautiful in color, a bright rosy-pink or rose shaded Hydrangea pink. The buds which open perfectly are long of ideal form. Splendid grower and free bloomer. Delightfully fragrant.

SILVER COLUMBIA—The color is a clear shade of deep silver pink, deepening towards the center. The flowers are larger than Columbia, inclined to be flat, but magnificently formed on long, strong stems, which make it an excellent rose for cutting.

JONKHEER J. L. MOCK—Sometimes called "The Giant Pink from Holland". This rose is very imposing and of the largest size. The buds are of immense and very fine form, borne on long, stiff stems. Color a clear imperial pink, reflexed petals of a lighter shade.

HADLEY—In color it is a deep velvety crimson, retaining its brilliancy at all seasons of the year. The variety is double and buds are well formed. It is a strong, rapid grower.

METEOR—Very few dark Roses compare with this in richness and depth in color, which is a rich velvety crimson, shading very dark in the depths of the petals.

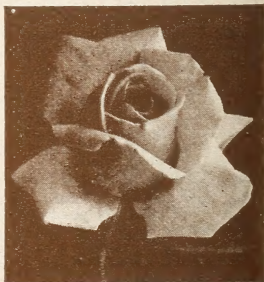

PERLE VON GODESBERG—The color is a rich canary-yellow with shading of saffron. Flowers large, double of good form and substance.

LOVELY KILLARNEY ROSES

PINK KILLARNEY—Is a beautiful Hybrid Tea Bush Rose; strong, sturdy and upright, with fine heavy, insect-proof foliage, bearing flowers that are simply exquisite in form and color; the bud is exceedingly long and the flowers immense in size; color deep, brilliant, sparkling shell-pink; hardy everywhere.

WHITE KILLARNEY—Identical with the parent variety, Pink Killarney, of which it is an offspring, except in color which is glistening white. Like Pink Killarney, its great charm lies in the beautiful shape of its buds.

YELLOW KILLARNEY (Mme. Jenny Gille-mont)—A brilliant saffron-yellow rose, opening canary with dark golden shades. The buds are long and pointed. Hardy, vigorous, constant blooming.

Pink Killarney

Price of Roses on this page: First size pot plants, 25c each, any 5 for \$1. 2 year old pot plants, 70c, any four 70c kinds for \$2.50 postpaid. Varieties marked * furnished also in dormant field grown plants 70c each postpaid.

HARDY EVERBLOOMING BUSH ROSES

Our New Rose "Crimson Beauty"

Crimson Beauty

Our splendid new variety has health in abundance, grows clean, strong and sturdy, has no weaknesses and blooms in marvelous profusion, bearing its magnificent, crimson flowers, which have much of the form of "Gruss an Teplitz", throughout the growing season, so that the bush is literally covered early and late with its gorgeous crimson flowers. Roses of this type are in the greatest demand because of their health, beauty and permanency.

MAD. ABEL CHATENAY—This splendid Rose is one of the very best of its color—rosy-carmine, with darker shade.

LAURENT CARLE—A beautiful Rose, with extra large, handsomely formed, rich velvety carmine buds and flowers.

SALMON SPRAY—Salmon pink with carmine reverse. Flowers are of medium size and borne in clusters. Continuous and profuse bloomer. Good for cutting. Very unique. Growth vigorous.

COLUMBIA—Almost thornless. Wonderful strong shoots four feet or more in length, producing a magnificent bloom, measuring six inches across the open flower. Color a deep peach pink, deepening into a glowing pink.

Price of Roses on this page: First size Pot Plants, 25c, any 5 for \$1. 2-year Pot Plants, 70c each, any four 70c kinds for \$2.50, postpaid.

Briarcliff

The best sport of Columbia yet produced, and one of the grandest roses that it has been our privilege to grow, and we have grown a large number of roses that have been produced by all countries. Bud beautifully formed, long and solid but not too pointed, opening into one of the finest blooms that could be imagined. Very double and a brilliant rose pink. The plant is a splendid grower, free from diseases such as black spot and mildew. Flowers produced in a great abundance the entire season, on long, stiff stems, making it ideal for cutting.

ROSE HILL—Sport of Columbia but superior in every way. Darker than Columbia, larger blooms, better foliage and grower. The buds and blooms are perfect in color and formation, being long pointed and solid, opening into a perfect bloom of immense size. Splendid grower, free from disease, producing an abundance of flowers the entire season. Color a pure rose pink of charming brilliance which does not lighten.

RHEA REID—The color is vivid scarlet crimson and the flowers are marvels of beauty; large, bold and of splendid substance. Plant strong, sturdy, vigorous grower.

SPECIAL OFFER—For \$1.00 we will send 2, three year old heavy plants of these magnificent plants of Rose Hill or "Briarcliff", by Parcel Post Prepaid without soil.

DINGEE EVERBLOOMING TEA ROSES

This class of Roses is famous for its lovely blooms of delicate beauty, soft refined colors; subdued, yet powerful fragrance. Constantly in flower, it has a place in all gardens. The Tea Rose, introduced into Europe from China in the early part of the nineteenth century, is the parent of all our everblooming Roses, and as the foundation of all the great Roses of today, has a warm spot in the hearts of all rose-lovers. And never has the marvelous beauty of the Teas been surpassed.

It must be pointed out that the Tea Roses are not as hardy nor as vigorous growers, as the Hybrid Perpetuals, or the Hybrid Teas. In the northern climates of extreme cold even the hardier kinds, such as Charles Dingee, must be given some protection in winter.

The Famous "Charles Dingee"

*CHARLES DINGEE

THE MOST WONDERFUL ROSE IN THE WORLD

To honor the name of Charles Dingee, we have produced a Rose better than any other variety in cultivation. We say, without fear of contradiction, that the Charles Dingee Rose is far-and-away the best garden Rose for general planting in the world.

The Charles Dingee Rose is the result of cross-breeding between *Hermosa*, that grand old hardy pink variety, and *White Maman Cochet*, perhaps the greatest of all white garden Roses. It is grown to perfection in almost any soil or situation. Most magnificent foliage, absolutely free from disease. Growing to a height of 2 to 3 feet, Charles Dingee blooms continuously, producing immense, deep, double, grandly formed flowers on long, stiff, erect stems. It is practically impossible to describe the delicate blending of colors—rosy tints in the centers of the flowers, gradually shading off into pale blush creamy white, a color effect both entirely new and distinct, exquisitely beautiful.

FREIHERR VON MARSHALL—

It has wonderfully beautiful foliage and produces large, full, beautifully shaped flowers, which are borne in profusion all through the season. The color is bright red.

IVORY—A sport of Golden Gate. Color pure white without a particle of any other color. Good grower.

BON SILENE—A grand Old Rose. The color is a deep rose, changing to pale light rose. Charming cup shaped blooms, borne freely. Very sweetly scented.

LADY HILLINGDON—Apricot yellow shaded to orange on the outer edge of the petals, becoming deeper and more intense toward the center of the bloom. The color does not fade after the bloom is cut, but invariably becomes darker.

THE BRIDE—There is no other white Rose more satisfactory than the Bride. The buds and flowers are unusually large, well formed and deliciously perfumed. Strong and healthy grower and a profuse bloomer.

BRIDESMAID—This variety is valuable for cutting and does finely in the open ground; a sport from the old and popular pink Tea Catherine Mermet, but of a fine, clear, dark pink, much deeper and more constant in color than Mermet.

CATHERINE MERMET—One of the best varieties of Tea Roses. A very free bloomer, producing clear, shining pink flowers, the center being shaded fawn and amber.

QUEEN'S SCARLET—A constant and profuse bloomer; color, velvety scarlet.

Price of Roses on this page: First size Pot Plants, 20c each, any 6 for \$1. 2 year old pot plants, 60c each, any four 60c kinds for \$2.00 postpaid.

BLOOMS

Alexander Hill Gray

Alexander Hill Gray

After a thorough trial both indoors under glass and in the open ground, we are pleased to offer this lovely yellow Rose to our customers as one of the very best of its class and color. The color, which is a deep lemon-yellow, deepening as the flower expands, does not fade in the open ground, as is usual with such. Buds and blooms of stamens, are produced in the greatest perfect formation and of great sub-abundance throughout the entire season. Strong grower and hardy everywhere. This Rose was awarded Gold Medal by the National Rose Society.

WM. R. SMITH—The soft blending, the magnificent flesh tints resemble the blush of a maiden's cheek. Bush is vigorous and spreading and blooms freely all season, foliage, fine, healthy.

SOUV. DE PIERRE NOTTING—Strong, bushy habit. The flowers are very large, well filled and open easily; color apricot-yellow tinged with golden and mixed with orange yellow, edge of petal shaded carmine-rose.

Pink Maman Cochet

The Queen of all Pink Garden Roses. The buds are large, full and firm, elegantly pointed, showing depth and richness as they expand. The superb flowers open perfectly double, are extra large and of splendid substance.

WHITE MAMAN COCHET—A most magnificent snow-white Rose, with sometimes a faint tinge of pale blush. It has the same freedom of bloom as the Pink Cochet, the same magnificent form of buds and flowers, and the same hardiness—standing at the very head of all Roses as the best white kind for open ground culture.

YELLOW MAMAN COCHET—A typical Cochet Rose, with gracefully molded buds, flowers, magnificent when open, on stiff, strong stems. This kind is identical in every way with Pink and White Cochet, color a deep sulphur yellow.

PERLE DES JARDINS—The color is a clear golden-yellow, of a beautiful shade; the flowers are large, full, of globular form.

Price of Roses on this page: First size Pot plants, 20c each; any 6 for \$1. 2 year old pot plants 60c each, any four 60c kinds for \$2.00, postpaid.

Exquisite
"Baby Doll"

Climbing Gruss an Teplitz

This is the hardiest of the everblooming Climbing Hybrid Teas. It blooms throughout the season, and is exceptionally satisfactory. Blooms of that fine dark crimson of its parent plant, the bush variety of the same name.

CLIMBING WHITE MAMAN COCHET

—Exquisite white.

CLIMBING PINK MAMAN COCHET

—As free blooming as the Cochet.

CLIMBING AMERICAN BEAUTY

—A real American Beauty of a climbing habit. Sturdy as an oak. Color glowing red.

CLIMBING CLOTHILDE SOUPERT

—The ivory-white color, shading toward the center to silvery-rose, gives an effect that is indescribably beautiful.

CLIMBING LADY ASHTOWN

—Strong, rapid grower; large, delicate pink flowers.

CLIMBING CECILE BRUNNER

—Color rosy pink, rich creamy white ground. Plants sturdy growing but need protection.

MME. GREGOIRE STAECHELIN

—A new type of climbing rose from Spain. Cross between the popular variety Frau Karl Druschki and Chateau de Clos Vougeot, and it seems to have inherited the good qualities of both. Long pointed buds of crimson at first, then as the blooms expand show splashes of carmine with pear pink inside.

BABY RAMBLERS

Hardy, dwarf, everblooming, splendid for hedging and massing, also single specimens.

BABY DOLL—Tips of petals are vivid scarlet, then mellowing down through shades of pink into saffron, lavender and gold, finally into deep old gold, a combination extraordinary.

ORLEANS—Brilliant geranium red flowers suffused rose, with a rosy white center.

ERNA TESCHENDORF—Crimson semi-double flowers borne in large clusters.

CLOTHILDE SOUPERT—Ivory white, shading toward the center to silvery rose. Great garden rose.

GEO. ELGER—Golden-yellow Roses, delicately formed in graceful clusters borne continuously.

DOUBLE WHITE BABY RAMBLER—Great masses of double, pure white flowers.

GRUSS AN AACHEN—Yellowish rose colored with salmon pink and red shadings. Blooms larger than the average polyantha.

Climbing Gruss an Teplitz

DINGEE HARDY CLIMBING ROSES

Hardy Climbing Roses have the popular call. They have become an absolute necessity for beautifying the home, for training over porches, verandas, trellises and pergolas, and they make most beautiful flowering hedges when trained on low supports. All the Climbing Roses in our unequalled list are on their own roots—a most vital point in a Climbing Rose. Some are absolutely hardy in the coldest parts of the country, while others, growing luxuriantly in the middle and southern sections, require some slight protection in the north. Liberal planting is particularly recommended for this class of Rose, for when once planted, they last a life time, growing more beautiful year after year.

Paul's Scarlet Climber

Vivid scarlet shaded slightly crimson, but almost a flaming scarlet, a most pleasing and striking color. Makes a brilliant display for a long time in the garden.

CHRISTINE WRIGHT—Blooms are produced singly and in large clusters, each bloom perfect in form and from 3 to 4 inches in diameter. Color an exquisite shade of bright wild-rose pink.

KEYSTONE—The open flower of Keystone is perfectly double, with buds beautifully formed. It is a deep lemon-yellow Rose, similar to Coquette de Lyon.

ALBERIC BARBIER—A thrifty yellow; flowers are bright and full, very fragrant.

DR. W. VAN FLEET—Flowers when open run four inches and over in diameter. The center is built high, petals beautifully undulated and cupped. The color is a remarkably delicate shade of flesh-pink.

TAUSENDSCHON (Thousand Beauties)—One of the most beautiful climbing Roses. Colors run from delicate balsam to bright rose and carmine.

SILVER MOON—Color is brilliant silvery-white with a mass of golden-yellow stamens in center.

BESS LOVETT—Resembles Climbing American Beauty in shape of bloom but is very much brighter in color and much more fragrant. Flowers are clear bright red, of good size, and of double, full, cupped form, lasting a long time.

VIOLET BLUE—The flowers are borne in loose clusters and are of a delightful shade of blue.

MARY WALLACE—Flowers very large, usually exceeding 4 inches across; well formed semi-double, of a bright clear rose-pink with salmon base to the petals.

EXCELSA—Crimson maroon with the tips of the petals scarlet.

Double Japan Snowball

Everblooming Hydrangea

The New Everblooming Hydrangea is, as its name implies, constantly in bloom from early in June until frost, and is one of the most important additions in the way of hardy shrubs ever introduced. All summer long it bears great clusters of white flowers, much like the tender Hydrangea in size and form; it will grow to perfection in partial shade, making it most valuable for massing under trees or growing on north side of house.

Philadelphus or Mock Orange

BOUQUET BLANC—Dwarf growth with long slender branches densely covered from base to top with sweet-scented double flowers of creamy-white. In fact the flowers are borne in such great profusion as to totally obscure the plant.

NEW PHILADELPHUS ("Virginal")—One of the most beautiful, new everblooming varieties. It also makes wonderful individual specimen plants on the lawn. A vigorous tall grower with very large double-crested flowers with round petals.

Weigela

FLORIBUNDA—6 to 8 ft. Erect grower. Beautiful red flowers.

ROSEA—Large deep rose.

VARIEGATED LEAF—Green leaves, pure white.

AMABILIS—4 to 6 ft. Deep rose colored flowers.

MAD. LEMOINE—4 to 6 ft. White flowers with delicate blush.

Sweet-Scented Shrub

CALYCANTHUS FLORIDUS, CAROLINA ALLSPICE—3 to 6 ft. Flowers dark reddish brown and very fragrant and borne freely.

Hardy Shrubs for Fall Planting

They are absolutely hardy, and, once planted, last indefinitely, increasing in size and beauty year after year. Ready about Nov. 1st.

Double Japan Snowball

VIBURNUM PLICATUM—Blooms in early June, when the whole bush is loaded down with great, compact balls of pure white, double flowers. They are borne in such profusion that the entire plant appears one dense mass of bloom; the tree grows erect and bushy, 6 to 8 feet high, with deep green leaves peculiarly crimped and crinkled. Wondrously beautiful.

Spiraea-Meadow Sweet

(Prices at bottom of page)

BILLARDI—Spikes of rose-colored flowers; blooms profusely.

PRUNIFOLIA (Bridal Wreath)—Double pure white flowers.

VAN HOUTTE—The bushes form fine, compact clumps. The pure white flowers are borne in great masses.

PERPETUAL BLOOMING CRIMSON SPIREA, Anthony Waterer—It makes a low, compact bush, 15 to 18 inches high. Large umbels of deep crimson flowers.

Kolkwitzia Amabilis

(Beauty Bush)—An exceedingly handsome new ornamental Shrub from the wilds of China, resembling the Weigela and Honeysuckle to which it is allied. Growing 6 to 8 feet high at maturity with long arching branches, this variety combines all the merits of a perfect Shrub; hardiness, year around beauty of foliage and habit, and an amazing profusion of pale pink bell-shaped flowers in June. Large 2 year old plants 75c each postpaid.

Everblooming Hydrangea, Arborescens Grandiflora

German Iris

German Iris

The memory of the "Blue Flag" of the old-time gardens is one ever sweet to those whose lives were lived in such surroundings, and while the "modern" Irises, if we may use the term, will remind one of the old days, they, too, like everything else of these days have yielded to the influence of improvement, and there has been evolved a race of flowers absolutely bewildering in glory of their form and color.

CANARY BIRD (Flavescens) — Lovely pale yellow.

DARIUS — Yellow and lilac.

HONORABILIS — Deep yellow; mahogany falls.

FLORENTINA ALBA (Silver King) — Early white.

ELIE CHEVALIER—Large, globular; rose flecked crimson. \$1.50 each.

FOR FALL PLANTING

Of all the flowers in the Hardy Garden the Peony is easily recognized as the Queen—in fact, it vies with the Rose for the title in many ways, for while in bloom it is without question the most glorious object in the garden. Once Peonies are planted they last for a lifetime. They stand the severest winters without the slightest protection. Especially fine for single specimens and cemetery planting. After blooming their charm lies in the beauty of the foliage, for even
